A black plastic tray containing various archaeological artifacts. The artifacts are arranged in several groups: a cluster of small, irregular, light-colored fragments in the upper left; a group of larger, reddish-brown fragments in the upper center; a group of elongated, cylindrical objects in the upper right; a group of small, dark, irregular fragments in the lower left; a group of larger, light-colored, irregular fragments in the lower center; and a group of larger, reddish-brown fragments in the lower right. A white label with the text "BCII" and "2023" is placed in the center of the tray.

BCII
2023

A collection of approximately 15 small, irregularly shaped fragments of light-colored, possibly ceramic or stone, material are scattered on a dark brown wooden surface with a prominent vertical grain. The fragments vary in size and shape, with some showing signs of wear or discoloration. A white rectangular label is placed in the lower-left quadrant of the image, featuring the handwritten text 'BC11' and the number '2032' enclosed in a hand-drawn circle.
